

NUMBER	TITLE	SESSION
380/16	Gamma-linolenic and pinolenic acids exert anti-inflammatory effects in cultured human endothelial cells through their elongation products	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/17	Knowledge and management of food allergy among pre-school child caregivers in Ogun State, Nigeria.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/18	Effect of supplementation with polyphenol-rich extract of <i>Passiflora ligularis</i> on the risk factors of metabolic syndrome in a murine model	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/23	Functionality of spleen lymphocytes from suckling rats is modulated by breast milk growth factors.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/41	Circulating leptin in healthy Nigerian females is positively associated with insulin but not in healthy Nigerian males.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/47	Fatty Acid Status of Sudanese Patients with Drug-Resistant Epilepsy	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/7	Comparison between different branched-chain amino acids supplementation protocols on cytokines synthesis in lipopolysaccharide-stimulated macrophages.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/9	Late supplementation with branched-chain amino acids in lipopolysaccharide-stimulated macrophages does not change inflammatory parameters	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/75	Effect of acute ingestion of sucralose on glucose tolerance and monocyte subpopulations in healthy young adults.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1

380/15	Immunomodulatory effect of consumption of Andalusian white wine in elderly men with high risk cardiovascular.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/19	Correlation of plasma vitamin D with phagocytosis in elderly care home residents.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/20	In Vitro Immunomodulating Effect of Quinoa and Hemp Proteins.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/35	Overtraining and exhausting exercise alter redox status, composition and functionality of lymphoid tissues in rats	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/36	Role of hesperidin on the intestinal immune system of young healthy rats.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/37	Effects of overtraining and an exhausting exercise on the mucosal immune system in rats	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/50	Lycium intricatum: phytochemical study and evaluation of antioxidant activity.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/51	Anti-inflammatory activity of Mexican Negro Jamapa bean (<i>Phaseolus vulgaris</i>) in murine RAW264.7 macrophages.	Poster Presentations. Session I Date: Monday, September 10th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/10	Beneficial effects of PARAISO yogurt on digestive symptoms, nutritional and immunological profile.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1

380/21	EPA and DHA habitual intake is associated with pro-inflammatory cytokines in Mexican population with and without type 2 diabetes mellitus	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/27	Effect of a multivitamin and fibre mixture on immunity and microbiota of adult rats.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/28	Lactobacillus fermentum CECT5716 administration in rats during gestation and lactation improves immune quality of milk.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/31	Supplementation with omega 3 in olive oil diet. Study in experimental model.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/38	Immunological effects of prebiotic B-GOS® on adult peripheral blood mononuclear cells.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/40	Plasma phosphatidylcholine saturated and monounsaturated fatty acids in healthy Nigerian and Mexican subjects.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/42	Comparison of n-3 plasma phosphatidylcholine (PC) fatty acids in healthy Nigerian and Mexican subjects.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 1
380/14	Calprotectin modulates bacterial metabolism during Clostridium difficile infection	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/24	Epidermal Growth Factor promotes the intestinal barrier maturation of preterm rats	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2

380/25	Lactobacillus paracasei supplementation effect on the intraepithelial lymphocytes composition in rat early life.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/26	Effect of adipokines supplementation on the microbiota and gut-associated lymphoid tissue composition in suckling rats.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/30	Immune system development in a rat model of prematurity for immunonutrition studies	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/45	Antioxidant capacity of the plasma lipid-soluble fraction in anorexia nervosa patients during a one-year follow-up.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
380/76	The impact of smoking habit on white blood cells in healthy elderly adults.	Poster Presentations. Session II Date: Tuesday, September 11th Time: 17:30-18:30 h Place: Virtual e-Poster Exhibition Area (Ground Floor) Touch Screen: Number 2
